

# LAMINATED FOAM FOR SOFT FURNITURE

For your outstanding ideas and unique projects!

*We create possibilities!*

**L1-32042**  
COMPOSITION:  
106 B  
VB2240 J 3 mm  
106 J  
DESCRIPTION:  
Black scrim  
VB2240 3 mm  
White scrim

**L1-32128-FR**  
COMPOSITION:  
165 B 70 gr/m<sup>2</sup>  
CH2715 P 16 mm  
185B 70 gr/m<sup>2</sup>  
DESCRIPTION:  
Velur 70 gms  
CM-HR2715 16 mm  
Velur 70 gms

**L1-22038**

COMPOSITION:  
106 J  
VB2240 J 8 mm  
DESCRIPTION:  
Black scrim  
VB2240 8 mm  
Black scrim

**L1-22048**

COMPOSITION:  
106 B  
VB2240 B 3 mm  
DESCRIPTION:  
VB2240 3 mm  
White scrim

**L1-32178**  
COMPOSITION:  
106 B  
VB2240 J 3 mm  
106 B  
DESCRIPTION:  
White scrim  
VB2240  
3 mm  
White scrim

**L1-32061**  
COMPOSITION:  
106 B  
VB2240 J 6 mm  
106 RD  
DESCRIPTION:  
White scrim  
VB2240 6 mm  
Brown scrim

**L1-22039**  
COMPOSITION:  
106 RD  
VB2240 J 8 mm  
DESCRIPTION:  
VB2240 8 mm  
Brown scrim

**L1-32095**  
COMPOSITION:  
106 B  
VB2240 J 4,8 mm  
106 J  
DESCRIPTION:  
White scrim  
VB2240 4,8 mm  
Black scrim

**L1-32049**

COMPOSITION:  
1085 B 70 gr/m<sup>2</sup>  
VB2240 B 5 mm  
106 B  
DESCRIPTION:  
Velur 70 gms  
VB2240 5 mm  
White scrim

**L1-22022**

COMPOSITION:  
106 B  
VB2240 B 2,6 mm  
DESCRIPTION:  
VB2240 2,6 mm  
White scrim

**L1-22045**  
COMPOSITION:  
106 J  
VB2240 J 6 mm  
DESCRIPTION:  
VB2240 6 mm  
White scrim

**L1-22090**  
COMPOSITION:  
106 B  
VB2240 J 6 mm  
DESCRIPTION:  
VB2240 6 mm  
White scrim

**L1-22021**

COMPOSITION:  
106 J  
VB2240 J 5 mm  
DESCRIPTION:  
VB2240 5 mm  
Black scrim

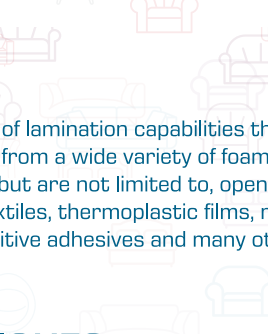

**L1-22049**

COMPOSITION:  
106 RD  
VB2240 J 3 mm  
DESCRIPTION:  
VB2240 3 mm  
Brown scrim

**L1-22004**  
COMPOSITION:  
106 B  
CV3037 B 4 mm  
DESCRIPTION:  
CV3037 4 mm  
White scrim

**Example 1**  
DESCRIPTION:  
Customer's textile  
PU foam

**Example 2**

DESCRIPTION:  
Customer's textile  
PU foam

**Example 3**

DESCRIPTION:  
Customer's textile  
PU foam

Vita Baltic International has a range of lamination capabilities that allow us to manufacture custom composites from a wide variety of foams and other substrates. The substrates include, but are not limited to, open and closed-cell foams, knit and woven textiles, thermoplastic films, medical grade coated fabrics, pressure-sensitive adhesives and many other specialized materials

## LAMINATION TECHNIQUES:

### Hot melt lamination

The demand of safer and environmentally friendly lamination methods has been increasing for the last years and hot melt adhesives have become increasingly popular with applications for technical textiles used in the automotive, garment, shoes and furniture industry, and in many other fields.

### Powder, film or web lamination

Environmental friendly technology. Adhesives are applied in the form of powder, web or film. This process is used for applying pressure sensitive adhesives onto various materials.

### Cutting

We can cut your material to desired size or shape. Laminated foam can be cut into stripes or tailor-made parts. We offer CNC cutting.

## CAPABILITIES:

1,5 - 30 mm Foam thickness 1.5 – 30 millimeters.

1,8 m Max width – 1.8 meter.

Both sides of foam may be laminated with the same or different materials (three-layer laminated product).

Can be glued with contact fabric that sticks to Velcro hooks.

### Development and research

We will work with you to thoroughly understand the functional requirements of your application in order to determine which lamination process will provide the necessary functionality of the composite, and which process will be the most cost-effective.
